

FOR IMMEDIATE RELEASE:

CanScribe Career Centre is the first Canadian School to receive the Medical Transcription Education Approval through ACCP!

Lake Country, BC. Tuesday, October 17th, 2006. The Approval Committee for Certificate Programs (ACCP), offered cooperatively by the American Association for Medical Transcription (AAMT) and the American Health Information Management Association (AHIMA) has awarded approval for three (3) years for the Medical Transcription Education Program to CanScribe Career Centre.

CanScribe Career Centre is a private educational institution located in Lake Country, British Columbia. CanScribe markets its nationally recognized Medical Transcription Course throughout Canada via on-line enrollment. As there is currently a critical shortage of quality trained Medical Transcriptionists throughout North America, CanScribe works closely with employers to help fill this demand. With a graduate employment rate of close to 100%, CanScribe graduates work on-site in Canada for doctor's offices, medical clinics, labs, long term health care facilities, hospitals, etc. as well as from home for both Canadian and US based Medical Transcription Service Organizations (MTSO).

With students enrolled from coast to coast, CanScribe continues its mandate to remain Canada's top rated MT school. CanScribe is very proud to be the first Canadian MT School to receive the ACCP education approval. Other CanScribe "firsts" include:

- The first fully interactive online MT Course in Canada
- The first and only Canadian MT School to be awarded the PIE (Partners In Education) agreement through MedQuist
- The first Canadian MT School to offer a Practicum to all graduates
- The first and only Canadian School to exhibit at both the AAMT (American Association for Medical Transcription) and the MTIA (Medical Transcription Industry Association) annual conferences.

CanScribe Career Centre is registered with the Private Career Training Institutions Agency of BC (PCTIA), is Certified with HRSDC for the purpose of issuing tax deductible tuition receipts to students and is a member of the AAMT, the MTIA and the Better Business Bureau (BBB).
